

GOVERNOR TALKS FOR THE EXPOSITION

He and Mrs. Swanson Return After Absence of Several Weeks.

THINKS SHOW WILL SUCCEED

Mrs. Swanson Will Go to Chatham This Week—Brief Capitol Notes.

Governor and Mrs. Claude A. Swanson returned last night from the Jamestown Exposition, where they have spent the past several weeks.

The Governor had his horses and carriage brought back to the city, and with the exception of a short time he will spend on his farm in Pittsylvania county later on, will remain here during the summer.

Mrs. Swanson will go to their summer home, near Chatham, on Tuesday or Wednesday, and will remain there for some weeks. Both greatly enjoyed their stay at the exposition, and though they will not remain there for any length of time, they will probably go several times again before the show is over.

Governor Swanson was in fine spirits when seen at the mansion last night. He remained there a short time, and then went to his office in the Capitol, to go over his mail.

"The exposition is coming on all right," observed His Excellency. "It is steadily improving, and there is already a picking up in the attendance. New features are being added, and the exhibits completed, and there are strong reasons for the belief that the success of the exposition is already assured."

Lights Out Again.

Owing to the fact that the repairs to the State lighting and heating plant have not been completed, the Capitol Square was in darkness again last night, except for the faint flicker of a few antiquated gas lamps.

Colonel John W. Richardson, Registrar of the Land Office and Keeper of Grounds and Buildings, under whose supervision the repairs are being made, hopes to have them completed by to-morrow night.

Gas had to be used at both the Capitol and Library Buildings after dark.

WANT STATUE THERE.

Philadelphia May Get Cast of Famous Houdon Statue.

The Public Ledger, one of the leading morning papers of Philadelphia, is leading a movement to have a bronze cast of the famous Houdon statue of George Washington placed in front of Independence Hall, in Philadelphia.

It seems from the Ledger account that the Bailey marble statue of Washington, which has for many years stood in front of Independence Hall, is suffering a gradual disintegration from the action of the weather. The proposition is to restore the present statue so far as possible, and have it placed at some suitable point inside Independence Hall, where the crumbling stone will not be exposed to the ravages of the weather, and to erect upon its present site a bronze cast of the famous Houdon statue, which is recognized as an authentic likeness of General Washington. A model for a new statue have been made already from the Houdon statue, one of these being in Washington and Lee University at Lexington, and one being in the Hall of Fame, in the rotunda of the Capitol at Washington.

The window tent is a happy arrangement by which a person in the very heart of a great city may conveniently get most of the advantages of out-door sleeping apartments, and yet occupy their own bedrooms. Chairs for outdoor comfort of those who are not strong, the Klonk sleeping bag used in Canada, and other interesting models are shown.

The exhibition is based on the fact that tuberculosis is a preventable, communicable and curable disease. Personal prevention is shown to consist largely in right living. The community is to be benefited by securing the absolute destruction of the sputa, or spit, of persons who have the disease, and who, in the all too common way, are sowing the seeds throughout the community. The cure offered by this exhibition, which is endorsed by the world's greatest physicians, consists of life in the open-air as nearly twenty-four hours a day as possible, an abundance of good food, and careful medical supervision. The reason for the last may be understood by stating that among other possible complications, extensive tuberculosis needs to be prescribed as carefully as a deadly drug. This simple outline promises a cure in a great majority of cases, if the other conditions are met. The first is to begin in time; the second, to keep it up long enough; and the third, to follow the instructions of the physician. As this is done, tuberculosis will cease to be a fatal disease in most cases, and it will be clearly proven not to be an inherited source of death.

Taken altogether, this feature of the exposition ought to be a source of hope and life to many. The management desires to give all possible information to visitors. Stereoscopic demonstrations are given daily by the director, E. G. Routzahn, of Chicago.

Addresses have been promised by Dr. Livingston Farrand, of the National Association; Secretary C. F. Weller, of the Washington Association; and many other well-known authorities will be announced from time to time.

BACKACHE AND DESPONDENCY

Are both symptoms of organic degeneration, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs has been for many years the most successful remedy in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 117 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired. Lydia E. Pinkham's Vegetable Compound completely cured me."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach. Cures Headache and Indigestion and invigorates the whole feminine system.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. Her advice is free.

MISS LENA NAGEL

BEST METHODS SHOWN FOR DEALING WITH TUBERCULOSIS

Exhibit of the American Tuberculosis Exhibition One of the Interesting Features of the Jamestown Exposition.

(Special Correspondence of The Times-Dispatch.)

NORFOLK, VA., July 6.—Not since the world began has any single cause of death taken so many human lives as tuberculosis, or consumption. Year by year, one-seventh of those who die in most civilized lands give up their lives to the Great White Plague. This long roll of brave men giving up their lives on both sides in the entire four years straggles between the States does not equal the yearly harvest of men, women and children taken off by consumption.

In view of these figures, no more valuable feature of the Jamestown Exposition will be found than the American Tuberculosis Exhibition, which, as shown in the Social Economy Building, under the auspices of the National Association for the Study and Prevention of Tuberculosis and the Norfolk Anti-Tuberculosis League. This exhibit is interesting to all, for all are interested in any and every human life. It should be understood, also, that the exhibit is absolutely free from any unpleasant features. It is not a "medical museum," nor is it a collection of horrors. In fact, there is nothing to show the effect of disease on the human body.

The exhibit does include a highly interesting collection of pictures showing the conditions of life which make tuberculosis more possible. Housing conditions in New York and other cities are graphically shown. Pictures of living conditions in Washington and in Virginia are given to account for the high death rate among all colored races in the South. The exhibit also includes a group of pictures and photographs representing such attractive institutional arrangements for the treatment of tuberculosis that involuntarily one wishes for a safe reason for spending a vacation period under such seemingly delightful surroundings. Then there are models in miniature of tents and old structures so planned that sick persons may live an outdoor life in perfect safety and comfort in any climate.

The window tent is a happy arrangement by which a person in the very heart of a great city may conveniently get most of the advantages of out-door sleeping apartments, and yet occupy their own bedrooms. Chairs for outdoor comfort of those who are not strong, the Klonk sleeping bag used in Canada, and other interesting models are shown.

The exhibition is based on the fact that tuberculosis is a preventable, communicable and curable disease. Personal prevention is shown to consist largely in right living. The community is to be benefited by securing the absolute destruction of the sputa, or spit, of persons who have the disease, and who, in the all too common way, are sowing the seeds throughout the community. JUDGE MONTGOMERY WILL FIND FACTS

Directed by Judge Pritchard to Get All Data Bearing on Rate Litigation.

STATE COMMITTEE MEETS

Much Speculation Indulged in Regarding Effect of Simmons's Resignation.

(Special to The Times-Dispatch.) RALEIGH, N. C., July 6.—Former Judge W. A. Montgomery, standing master for this, the eastern, district of North Carolina, has received his order from United States Circuit Judge Pritchard, directing him to find the facts in the noted North Carolina railroad rate litigation, Southern Railway v. Atlantic Coast Line, against the Corporation Commission and the Attorney General, to prevent the application of the 2-1-4 cent passenger and reduced freight rates. The order directs that the sessions of the standing master be held in Washington, D. C., and such other places as the convenience of the standing master and the parties involved in the litigation may require. This means that the principal sittings will be in Washington for the general offices of the Southern, and in Wilmington for the principal offices of the Atlantic Coast Line. Judge Montgomery intimated to-day that the first sittings would be held some time next week, probably in Washington.

The case for the Southern, under the conditions of the order, is to be heard first.

A charter was issued to-day for the Driving Park of Mt. Airy—capital, \$25,000—by N. H. Wright and others.

Speculation as to the probable action of the State Democratic Executive Committee, which meets in special session here Monday night to accept the resignation of Senator F. M. Simmons, has been very active.

There is a strong element of opinion that the committee will simply accept the resignation of Mr. Simmons and direct the secretary to act under instructions of the committee until the next State Convention, when the whole party can have a say as to the chairmanship. On the other hand, there are those who insist that it would be the part of good politics on the part of Senator Simmons to so direct the committee meeting Monday night as to have a successor of his own choosing in charge of affairs from now until the State Convention.

KAUFMANN & CO. EXCLUSIVE APPAREL FOR FASHION'S DEVOTEES

\$7.50 to \$15.00 Linen Suits Now \$2.50

This week we intend to clean up all odd lots of Linen and Cloth Suits, and have priced them to insure rapid selling.

The lot of Linen Suits at two fifty are in neat Eton effects, slightly soiled from handling. A little laundering will make them as good as new.

The following Cloth Suits are all in this spring's new styles:

Cloth Suit Reductions.

Odd sizes in Spring Suits, in Eton and coat effects, that sold for \$7.98, \$10.00 and \$12.00, \$6.00
Spring Suits that were selling at \$12.50, \$15.00 and \$16.50 now \$7.50
Fine Cloth Suits, in Eton and coat styles, that were \$18.00, \$20.00 and \$25.00, now \$10.00

Silk Suit Reductions.

All our Silk Suits that were selling at \$15.00 and \$16.50 now \$10.00
Silk Suits that were \$20.00, \$22.50 and \$25.00 now \$15.00
Fine Silk Suits, beautifully made in exclusive styles, that were \$35.00, \$38.00 and \$50.00 now \$25.00

A Stirring Sale of Cool Summer Waists

A rousing sale of Waists, hundreds of them, in every conceivable style, from the exquisite dress models to the tailored ones for out-door wear.

They are without exception up to the high standard of excellence required by this store, all much under ordinary prices—some at less than actual cost. Read the details, and come prepared to fill your season's needs.

\$1.00 and \$1.25 Reduced to 85c

White Lawn Waist, with front of all-over embroidery, fine or large tucks, fastened front or back; short or long sleeves.

\$1.75 and \$1.98 Reduced to \$1.38

A large assortment of Lingerie Waists, in several styles, embroidery and lace trimmed, tucks and embroidery; or lace and embroidery trimmed; short sleeves; fastened back.

\$3.50 Waists Reduced to \$2.38

Fine Lingerie Waist, yoke front and back of Val. insertion and fine tucks; collar and cuffs of insertion and tucks edged with lace; short sleeves; fastened back.

\$5.00 Waists Reduced to \$3.50

Fine Lingerie Waist, front elaborately trimmed with circular strips of Val. insertion; medallion in centre of yoke; yoke on back; also, another style with embroidered panels on front enclosed by Val. insertion, strips of Val. insertion and clusters of tucks on back; short sleeves; fastened back.

\$6.50 Waists Reduced to \$5.00

Fine Lingerie Waist, deep round yoke, front and back of wide Cluny and Val. insertion; large medallion on front; short sleeves; fastened back.

\$10.00 Waists Reduced to \$7.50

Fine Lingerie Waist, deep yoke on front of Val. lace and hand-embroidered medallion; lace extends into blouse of waist; short sleeves, trimmed with Val. lace; fastened back.

Clearance Sale of Fine Summer Belts.

There are hundreds of fine Belts in this sale, in all the newest designs, at near half and half savings.

50c Belts, 19c.
